Mohammed Waseem Khan

Platform Engineer

Denver, CO | +1 (314) 305-4602 | iamwaseem18.us@gmail.com | linkedin.com/in/iamwaseem | github.com/iamwaseem18

PROFESSIONAL SUMMARY

Platform Engineer with hands-on experience in Kubernetes migrations, cloud-native infrastructure, CI/CD pipelines, and observability tooling. Currently leading the migration of production workloads from cloud VMs to Kubernetes clusters, managing container registries, and building internal developer platforms. Background in cybersecurity with experience in secrets management, identity systems, and secure infrastructure design.

PROFESSIONAL EXPERIENCE

Platform Engineer | WeOwn (Web3 Freedom Club DAO LLC) Mar 2025 - Present

Denver, CO (Remote)

- Leading migration of 6+ production workloads from DigitalOcean droplets to Kubernetes (DOKS) clusters, starting with F1Visa services across ATL1 and MEM1 regions
- Built and manage Harbor container registry (registry.weown.tools), migrating all container images from DOCR to self-hosted infrastructure
- Deployed and configured OpenBao (HashiCorp Vault fork) for secrets management with automated key rotation at bao.weown.tools
- Provisioned and maintained 10+ WordPress sites across DigitalOcean droplets with automated deployments, SSL, and transactional email (SMTP2GO)
- Implemented observability stack with Matomo analytics across all WeOwn properties; configured Postiz for social media automation
- Managed Keycloak identity platform for decentralized identity and SSO across multi-tenant applications
- Set up CI/CD pipelines using Copier templates with Terraform and Infisical for repeatable infrastructure deployments

Junior DevOps Engineer | ZIT Solutions Sep 2024 - Jan 2025

Hyderabad, India

- Managed Linux servers and automated infrastructure provisioning for client environments using scripting and configuration management
- Configured CI/CD pipelines, containerized applications with Docker, and maintained monitoring and alerting systems
- Collaborated with development teams to streamline deployment workflows and reduce release cycle times

Cybersecurity Intern | Hyderabad City Police 2023

Hyderabad, India

- Assisted in cyber crime investigation and digital forensics; gained hands-on experience with security incident response
- Conducted vulnerability assessments and contributed to security awareness training programs

NOTABLE PROJECTS

Buzz Multi-Agent Platform on K8s - Kubernetes-native agentic AI deployment

- Deployed Postgres, Redis, MinIO, and relay services on DOKS with Traefik IngressRoute, Let's Encrypt TLS, and Cloudflare DNS
- Configured pod autoscaling (0-2 nodes), resource limits, and K8s secrets for multi-agent orchestration platform

Harbor Container Registry Migration - Self-hosted registry on K8s

- Migrated all container images from DOCR and third-party registries to self-hosted Harbor at registry.weown.tools
- Built multi-arch (amd64/arm64) image pipelines with docker buildx; automated image mirroring with rollover scripts

Multi-Region DOKS Cluster Build - Production Kubernetes infrastructure

- Provisioned and configured DOKS v5 clusters across ATL1 and MEM1 regions with RBAC, namespace isolation, and ClusterRole bindings

Health Markers Passport - Midnight Network Buildathon

- Developed a decentralized health data platform on Midnight Network for the WeOwnHealth initiative

EDUCATION

M.S. in Computer Science Expected Dec 2026

Westcliff University, Irvine, CA

B.S. in Computer Science 2020 - 2024

Osmania University, Hyderabad, India

TECHNICAL SKILLS

Containers & Orchestration: Kubernetes, Docker, Helm, Harbor, DOKS, MicroK8s
Cloud & Infrastructure: DigitalOcean, AWS, Terraform, Linux (Ubuntu), Nginx, Caddy
CI/CD & Automation: GitHub Actions, Copier Templates, Infisical, GitOps workflows
Observability & Monitoring: Matomo, OpenTelemetry, Prometheus, Grafana
Security & Identity: OpenBao (Vault), Keycloak, SSL/TLS, secrets rotation, RBAC
Languages & Tools: Python, SQL, Bash, Git, WordPress (enterprise-scale)
Networking: DNS management, reverse proxies, load balancing, Cloudflare, Traefik

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA)
- Google Cybersecurity Professional Certificate
